

Greetings and Welcome to Bauhaus Workshop

Dear Workshop Participants,

We are pleased to see such a great group of Academy members interested in learning together about one of the 20th century's most significant contributions to our visual and functional environments. The Bauhaus School continues to have a large footprint in our lives despite its short life between the two world wars in Germany's Weimer Republic.

Choose your workshop date and topic and get back to us as soon as possible.

You will find the workshop schedule attached. The schedule takes us through the spirit, history, biographies and production of this vital movement. You will see that the schedule is a "suggestive" document; you are welcome to work with it and adapt subjects to your specific presentations. Visuals will be essential during our discussions. You can choose whatever method suits you.

Please choose the workshop you would like as soon as possible and send your choice to us by email.

You can use the Academy website to stay up to date on Bauhaus materials

You will find the continually updated Bauhaus Workshop schedule and a growing number of links to books, articles, u-tube sites, and videos on our page on the Academy website. This is a very useful place for you to start if you are looking for inspiration and background. We will be continually posting useful stuff to our page.

We will always let you know by email what has been added to the website.

We are always happy to talk with you. You can email or call either one of us.
