

PRESENTATION TOPIC LIST (June 16,2020)

The Workshop Presentation topics are as follows below. Hopefully there is something of interest for everyone. This is the second year of the CC workshop, which we are now calling CC II. None of the last years topics have been exhausted just slightly reorganized. There are 6 new topics this year. They are: "In the News", Psychology, Risk Management, career opportunities, poverty, and health

There is no specific pre-planned order. Just let us know your 1st and 2nd choice and preferred date and we will do our best to develop the schedule for later inclusion in the "Notes"

Climate Science

- World Climate Zones and changes
- The science & the deniers (is the controversy resolved?)
- Temperature data and their proxies
- The oceans' effect on climate
- Climate modelling II
- Tipping points

Climate Change Impacts

- local, Canada & worldwide.
- Poverty
- Health

Actions

- Transition to fossil free energy use; nuclear power
- Industry announcements and plans
- City of Toronto Plan
- Changes needed to structures and transportation
- EVs: choices, adoptions & charging station progress

Economics

- incentives, taxation, regulations
- The "Green Economy"
- Career Opportunities
- Transition impact
- Risk Management
- Zero growth & Circular economy proposals

Politics

- National & international; conferences
- Party platforms

Psychology

- How to get agreement
- use of media (old fashion & social)
- Climate activism

"In the News"

– a selection of the previous 4 weeks of CC news in print or on-line media to bring up for discussion.
